SUMMARY

Front-end web developer with a background in sports management and sales. Trained at Columbia coding boot camp and earned a certificate in full-stack web development. Innovative problem-solver passionate about developing apps; focused on mobile-first design and development. Strengths in creativity, teamwork, and building projects from ideation to execution.

TECHNICAL SKILLS

Foundation Skills - HTML, CSS, Git, JavaScript, Bootstrap, DOM, APIs, JQuery, JSON, AJAX, and Computer science fundamentals.

Technical Skills - Node, ES6, Object-oriented programming, Express, MySQL, MVC paradigm, Sequelize, Testing, and Agile developments.

Performance Skills - Progressive Web Apps(PWA), React, NoSQL, MERN Stack, RESTful APIs, GraphQL, Jest, Handlebars, Webpack, Vite, and Apollo Client/Server

PROJECTS

My Daily Almanac | <https://github.com/realkevinC/my-daily-almanac> | <https://mikeyboxx.github.io/my-daily-almanac/>

- My Daily Almanac app is a personalized site for a user to jot down his/her thoughts and see various information tailor to their own interests/specifications/needs.
- I worked on the notes feature of the app. Users will be able to jot down thoughts in a text area and be able to view previous thoughts prior days. Worked on textpad.js file
- Tools / languages used were HTML, CSS, JavaScript, jQuery, Bulma CSS, FIGMA, API, GIT

Lucario's Restaurant Menu | <https://github.com/realkevinC/restaurant-menu> | <https://xyz-restaurant.herokuapp.com/>

- Lucario's web app allows users to view the restaurant's menu, log-in to store personal information such as phone number, address, credit card information, and favorite dishes.
- I worked on the shopping carts functionality. To fully integrate the carts into the app it requires me to work on the models, api routes, and partials of the handlebars.js.
- Tools / languages used were HTML 5, CSS, Javascript, HandleBars, Node, Express, MySql, Nodemon, Heroku, Insomnia, and Helmet.

Gift Guide | <https://github.com/realkevinC/gift-guide-project> | <https://group2-gift-guide.herokuapp.com/>

- Gift Guide is an app that allows you to create a wishlist of gifts you'd like to receive from loved ones. You can create multiple wishlists and even invite friends to assign themselves a gift to give to you while still keeping the gifts a surprise for the wishlist owner.

- I worked on the signup and wishlist functionality to allow users create a wishlist, add delete items on the wishlist, and edit wishlist names. On the front-end I made both the signup and wishlist routes and worked with the mutations and queries so that the wishlist is connected to the user.
- Tools / languages used were MERN stack, MongoDB, Express, React, Node, JWT, Socket IO and CSS.

EXPERIENCE

Account Executive Inside Sale
Angi

Mar 2022 – Aug 2022
New York, NY

Worked in Angi Ad Sales division and was responsible to communicate with service providers and recruit them into the ANGI network. Daily metrics were minimum 250 cold calls and 4 hours talk time and weekly metrics were minimum 3 sales a week.

Key Accomplishments:

- Had 95% in retention of service professionals using our product and spending money. One of the top reps in retention.
- Generated 10,000\$ in revenue in the first month out of training. One of the few who got 3000\$ bonus for hitting metrics during training

EDUCATION

Certificate in Full Stack Web Development : Columbia University, New York, NY
Graduated in Dec, 15 2022

An 12 week intensive Full Stack Coding Bootcamp at Columbia University focused on gaining skills in developing web applications on both front end and back end.

Bachelor of Science in Sports Management : University of Florida, Gainesville, FL
2015 – 2019
